

2013 Cornell University Research Board spring research forum participants – Department of Human Development, College of Human Ecology

Student	Major	Faculty	Topic
Jeanie Gribben	Human Development	Charles Brainerd	The memory, aging, and cognitive impairment study (MACIS): Preliminary findings; other students on the poster were: Nicole Meyers, Masrai Williams, Chelsea Lauderback, Suzy Xu, Victoria Silverman, Tyler Fugere, Jerry Shen, Morgan Drucker, Jeanie Gribben, Allison Wood, Subah Nanda, James MacDonald
Haley Jones, Montana Birringer	Human Development	Marianella Casasola	Evidence for impaired self-regulation among low income infants
Marie Camerota	Human Development	Marianella Casasola	Does parenting matter? Exploring the link among poverty, mental state language, and executive function in infancy
Katherine Callaghan	Human Biology, Health, and Society	Marianella Casasola	If you're happy and you know it: Toddler's comprehension of emotion words
Brittany Tusa	Human Development	Richard Depue	Comparing the diagnostic validity of ASPD preceded by conduct disorder with adult-only antisocial personality disorder
Maggie Diu	Human Development	Gary Evans	The effect of poverty on parenting responsiveness, child reactivity, and effortful control
Nicholas Ramos	Human Development	Gary Evans	Empirical investigation into potential implications of multi-generational poverty research
Elizabeth DuPre	Human Development	Barbara Ganzel	Differential neural and behavioral impact of trauma and developmental period
Evelyn Fok	Human Development	Cynthia Hazan	Gender congruity and physical attractiveness in leadership evaluation
Shelby Distenfield	Human Development	Tamar Kushnir	Examining parental role in children's concepts of choice
Emily Fatcher	Policy Analysis and Management	Corinna Loeckenhoff	Age differences in regret management Strategies
Leah Shabo	Human Development	Barbara Lust	Tracing language in pre-clinical Alzheimer's Disease: Evaluating pronoun deficits in mild cognitive impairment
Jenna Behrendt	Human Development	Barbara Lust	Picture this: Early linguistic detection of cognitive impairment
Colleen Sullivan, Azraa Janmohamed	Human Development	Barbara Lust	The use of the ACE-R cognitive examination in assessing cognitive decline in patients with mild cognitive impairment
Natalie Finn	Human Development	Jane Mendle	Accommodations for illness in everyday situations
Julie Avrutine	Human Development	Valerie Reyna	Be afraid, be very afraid: Predictive effects of fearful and fatalistic attitudes on young adult risk behavior
Emily Lopes	Human Biology, Health, and Society	Valerie Reyna	Evaluating fuzzy trace theory and theory of reasoned action/planned behavior and their application to fitness and diet decision-making in young adults
Julie Steinberg	Human Biology, Health, and Society	Valerie Reyna	A fuzzy-trace theory approach to vaccination decisions
Zachary Nollet	Human Development	Valerie Reyna	Neural connectivity and the framing effect: Is greater connectivity associated with greater rationality?
Meera Menon	Human Biology, Health, and Society	Steven Robertson	Relating body movement and attention in infants
Rebecca Morgan	Human Development	Janis Whitlock	An exploratory study of parent-adolescent communication, mindful parenting, and non-suicidal self-injury (NSSI)
